Increased innovation, creativity, performance and a better bottom line. However, building diverse teams in the workforce is not easy. Not everyone has the Cultural Intelligence (CQ) to work with people from other countries and cultures. Cultural Intelligence is not a personality trait, nor is it something you are born with. Rather, Cultural Intelligence develops through education, training, and experience. A good place to start to find out more about CQ is Felicity Menzies new book A World of Difference. Filled with a mix of anecdotes drawn from the authors personal experiences and research on this topic,

Comments helps leaders to understand Cultural Intelligence and how it can give them an enviable competitive advantage. Companies with leaders and workers who have high Cultural Intelligence are more agile. These organisations can quickly adapt processes, products, and services to capture new opportunities and respond to change across diverse markets. Cultural Intelligence also promotes successful intercultural relations, both inside and outside the organisation. This improves business performance via enhanced innovation, increased workforce engagement, and more effective partnering.

When the Viking lander on the planet Minerva was destroyed, sending back one last photo of a strange alien being, scientists on Earth were flabbergasted. And so a joint investigation was launched by the United States and the Soviet Union, the first long-distance manned space mission, and a symbol of the new peace between the two great rivals. Humankind's first close encounter with extraterrestrials would be history in the making, and the two teams were schooled in diplomacy as well as in science. But nothing prepared them for alien

Information Technology has become an essential component of contemporary society, allowing much faster and more widespread communication, not least through the growth of the Internet. However, many issues concerned with the human aspects of the use of IT remain problematic despite technological advances. An enhanced ability to collect and process data, or to communicate electronically across time and space, does not necessarily lead to improved human communication and action. This book explores the social aspects of

Computerisation, using a wide range of detailed case studies, analysed from a variety of conceptual viewpoints. A further distinctive feature of the book is that it draws on empirical material from across the world as a whole, including non-Western countries. It is argued that we should be using IT to support a world in which diversity and difference are respected.

Synopsis Making a World of Difference provides a context for the whole debate about the relationship of people and computers. It looks at the role of IS/IT in a modern society and the way it impacts on people,

Continents helped thousands of children orphaned when the blood supply was contaminated by Aids; and the Methodist minister in America who discovered her preacher husband was gay, then devoted her life to helping young people threatened by violence, drug addiction and unsafe sex. What unites the people in this book is their passion and compassion. And what the book reveals is their secret: that in doing good for others, you transform your own life and gain what one person calls 'the contentment of giving'. Often eye-opening, always challenging, this is a book that can change lives - even your life.
