Simple instructions to start guitar lessons.

"We loved the book. The information was well paced and concise enough not to overwhelm. Any beginner would definitely benefit from having this book, and it's a great reminder for those who might have forgotten details or are looking for them. " -- Nimal De Silva, The Music Garage (Singapore) "Plenty of detail that goes into posture, hand position, thumb position, etc. The notation and strumming is really good here because it builds up in stages. In a lesson, you can introduce it in this way piece by piece and not overwhelm the student." -- Michael Hanna, Grade 8 RS.Guitar - Larne Guitar School (N.Ireland) Learn to Play Guitar is comprehensive and clear with over 180 photographic examples, illustrations and purpose made diagrams. This guitar book includes 42 downloadable mp3 tracks of full band demo and backing track with the guitar removed for you to play over. Learn to Play Guitar bridges the gaps explaining guitar techniques that can be taken for granted by more experienced guitar players. Melodies: To get you straight into playing music, numbers have been added underneath guitar tablature to assist with the rhythm. Later on, the rhythmical aspect of conventional music notation is covered so you can use it in conjunction with tablature. Rhythm Guitar: Changing between chords and strumming are presented as separate subjects initially, so that you can develop coordination in each hand independently. They are then brought together starting basic and getting more advanced until there is a rhythm guitar musical piece to play. Music theory: The major scale, minor scale, major and minor pentatonic scales and basic major and minor chord construction are explained in terms of the fret-board and reinforced by musical pieces in various styles to make the learning process practical and enjoyable. What else?: Fret-board layout, power chords, barre

chords, how to string a guitar, how to practise guitar, palm muting and basic lead guitar techniques. Please Note: The eBook includes musical pieces so is not suitable for smaller screens. "This top value eBook and MP3 package covers a wide range topics essential for all guitarists. Over 100 pages with plenty of information and solid advice that a player can dip into as needed. Evans does not gloss over the often neglected area of reading notation for rhythm. There are many examples to practice (melodies and rhythm patterns) with the backing tracks. I was especially interested in the final section of exercises to keep your body guitar-ready. A very useful tool to help you progress with your guitar playing." -- Hedley Timbs BA(Mus), Grad.Dip. Teaching (New Zealand) "Awesome. Well laid out, easy to look at and there is the supplemental material to top it off. The theory may get tedious for some, it's hard to not teach theory but most people seem to have an aversion to it, the idea of discipline I think." -- Gernot Schlegel, Professional Guitarist & Teacher (Canada) "There ' s two ways of learning the guitar – the first is to learn enough of the basics to fly towards playing your favourite songs competently, and the second is to intensively gain an understanding of the instrument by forming a solid foundation through taking your time with it in the early stages. The book titled “ Learn to play Guitar ” by Gareth Evans is of the latter approach. Through reading and learning from this book, players can discover a deep, extensive and in-depth approach to the technique, theory and everything else related to being a good beginner guitarist. Newcomers can learn positive and productive exercises to train their body to better play the guitar (not just their fingers) and across the 120 or so pages within, it ' s clear that the writer has put a lot of time into figuring out the right approach for starters to take when adjusting to the standard 6-string. Would recommend this for anyone who is looking to get a really solid grip on how to play the guitar, and also to tutors who are looking at ways to improve their own tutoring abilities." -- Logan Ellis, Mgr. Spiderhands Productions Ltd (New Zealand) "Learn to play Guitar is an ideal companion to support the beginner on their new found musical journey. Highly recommended." -- Liam Cain, BMus (hons) Professional Guitarist (UK)

Have you ever listened to a master blues musician and wondered why their solos sound different and more powerful than yours? “ Beyond Pentatonics ” Contains 104 Pages of Blues Guitar Secrets for the Advancing Guitarist: Add New, Rich Melodic Colours to your Solo Learn how the Greatest Guitarists Target the Most Powerful Notes. Master Every Important Scale Choice for Every Chord in the Blues Progression Over 125 Licks, 80 Minutes of Audio and 10 Backing Tracks The Complete Guide to Playing Blues Guitar is a three-part series that teaches you all the essential skills required to become an excellent blues guitarist. Book Three: "Beyond Pentatonics" shows you how to break away from the minor pentatonic soloing rut that many blues guitarists quickly fall into. The first half of "Beyond Pentatonics" shows you how to target the most powerful notes from each chord in the blues progression to create the greatest emotional effect. Every chord change in the blues progression is covered in minute detail, with clear diagrams and plenty of great licks to learn. You'll quickly find yourself playing emotive, original solos that you never before thought possible. The second half of 'Beyond Pentatonics', looks in great detail at the many possible scale choices for each of the chords in the blues. Every essential scale choice is given for the I, IV and V chords, with theory and important concepts clearly explained. There are over 125 pieces of authentic blues vocabulary, plus many 'tricks of the trade' to help you incorporate these compelling sounds into your solos. There is no better, more detailed book to

teach you the melodic secrets of blues guitar soloing.

From Jimi Hendrix to Ed Sheeran, every guitar hero started somewhere - so stop dreaming and start playing! Covering acoustic and electric, this book includes everything you need to know, from choosing your instrument and reading guitar tab, to using amplifiers and effects. Easy-to-follow lessons take you through all the steps to becoming a great guitar player- from tuning for beginners to advanced techniques for experienced players such as fingerpicking and two-handed tapping. Pick up guitar theory along the way including rhythm, chords, and scales, and how to fine-tune your playing for blues, pop, rock, and more. Beginner's Step-by-Step Guitar also helps you take your music to the next level with practical tips on forming a band, recording, and playing gigs.
