What does a woman want to do when she retires? Travel? Pursue hobbies? Spend time with friends and family? We all have dreams about what those days will be like. But when it comes to turning those dreams into reality, women's retirement confidence and know-how is low. According to a 2012 survey, 92 percent of women of all ages in this country don't feel they're educated enough to reach their retirement savings goals. For the woman who doesn't know where to start or would like a knowledgeable guide who speaks her language, financial expert Mary Hunt offers a comprehensive but approachable resource for saving and planning for retirement. Whether she feels entitled to retire at age 65, hopes she'll be able to stop working someday, or is convinced she'll

never be able to retire, every woman will find real help in these pages. With her signature no-nonsense, energetic style, Hunt assures women that it's only too late if they don't start now. She clearly covers every aspect of retirement planning during every season of a woman's life, giving women the confidence they need to shape their futures.

You're in Control of Your Retirement Future Inside are twenty major financial decisions that could profoundly impact your lifestyle over the next forty years. For many retirees, these decisions come as a surprise and must be made hastily without proper consultation. But by reading the expert, commission-free advice in this fully revised and updated edition, you'll learn how to manage your assets and prepare for the best possible retirement.

- Do I have enough money to retire now?
- How will I cover my medical expenses during retirement?
- When should I begin taking Social Security?
- How much should I invest in stocks, bonds, and cash?
- What criteria should I use to identify the best investments?
- Should I cancel my life insurance policy?
- Should I pay off my mortgage at retirement?

Here is a single-sit read than can change the course of your retirement. Written by Dr. Teresa Ghilarducci, an economics professor, a retirement and savings specialist, and a trustee to two retiree health-care trusts worth over \$54 billion, *How to Retire with Enough Money* cuts through the confusion, misinformation, and bad policy-making that keeps us spending or saving poorly. It begins with acknowledging what a person or household actually needs to have saved—the rule of thumb is eight to ten times your annual salary before retirement—and how much to expect from Social Security. And then it delivers the basic principles that will make the money grow, including a dozen good ideas to get current expenses under control. Why to “get rid of your guy” —those for-fee (or hidden-fee) financial planners that suck up valuable assets. Why it's always better to pay off a loan or a mortgage. There are no gimmicks, no magical thinking—just an easy-to-follow program that works.

**AWARDS:** Silver Living Now Book Award, Mature Living/ Aging 2014 (Silver) If you're one of the 25 million single women over the age of 45 living in the United States today, AARP's *The Single Woman's Guide to Retirement* is your new best friend. Walking you through the challenges of retired or pre-retired life, from managing your finances to staying healthy in body, mind, and spirit, dealing with divorce, and even looking for love or work, the book covers the issues that really matter to you. Whether you're looking for a retirement home or planning a cruise, this book is packed with specific details to help take the guesswork out of retirement. Author and retirement expert Jan Cullinane has gathered real-life stories from women just like you to illustrate your options and give you fresh new ideas about how to make the most of your retirement years.

"With *How to Make Your Money Last*, you will learn how to turn your retirement savings into a steady paycheck that will last for life. Today, people worry that they're going to run out of money in their older age. That won't happen if you use a few tricks for squeezing higher payments from your assets--from your Social Security account (find the hidden values there), pension (monthly income or lump sum?), home equity (sell and invest the proceeds or take a reverse mortgage?), savings (should you buy a lifetime annuity?), and retirement accounts (how to invest and--critically--how much to withdraw from your savings each year?). The right moves will not only raise the amount you have to spend, they'll stretch out your money over many more years. You will also learn to look at your savings and investments in a new way. If you stick with super-safe choices the money might not last. You need safe money to help pay the bills in your early retirement years. But to ensure that you'll still have spending money 10 and 20 years from now, you have to invest for growth, today. Quinn shows you how. At a time when people are living longer, yet retiring with a smaller pot of savings than they'd hoped for, this book will become the
