Bringing together Mary Klages's bestselling introductory books Literary Theory: A Guide for the Perplexed and Key Terms in Literary Theory into one fully integrated and substantially revised, expanded and updated volume, this is an accessible and authoritative guide for anyone entering the often bewildering world of literary theory for the first time. Literary Theory: The Complete Guide includes:

- Accessible chapters on all the major schools of theory from deconstruction through psychoanalytic criticism to Marxism and postcolonialism
- New chapters introducing ecocriticism and biographies
- Expanded and updated guides to feminist theory, queer theory, postmodernism and globalization
- New and fully integrated extracts of theoretical and literary texts to guide students through their use of theory
- Accessible coverage of major theorists such as Saussure, Freud, Lacan, Foucault, Cixous, Deleuze and Guattari and Bhabha

Each chapter now includes reflection questions for class discussion or independent study and a cross-referenced glossary of key terms covered, as well as updated guides to further reading on each topic. Literary Theory: The Complete Guide is an essential starting point for students of critical theory.

Rescuing the subject from deadly dry theorists and -isms, Clare Connors focuses on the real questions that emerge when we read and study literature - such as how we find meaning and how literature relates to its historical context - before exploring the response of theorists. Using selections from works including poetry by Christina Rossetti and Annie Proulx's *Brokeback Mountain*, Connors unites theory with practice, revealing how enjoyable it is to think about reading.

Publisher Description

From Plato to Freud to ecocriticism, the book illustrates dozens of stimulating-and sometimes notoriously complex-perspectives for approaching literature and film. The book offers authoritative, clear, and easy-to-follow explanations of theories that range from established classics to the controversies of current theory. Each chapter offers a conversational, step-by-step explanation of a single theory, critic, or issue, accompanied by concrete examples for applying the concepts and engaging suggestions for related literary readings. Following a section on the foundations of literary theory, the book is organized thematically, with an eye to the best way to develop a real, working understanding of the various theories. Cross-references are particularly important, since it's through the interaction of examples that readers most effectively advance from basic topics and arguments to some of the more specialized and complicated issues. Each chapter is designed to tell a complete story, yet also to reach out to other chapters for development and debate. Literary theorists are hardly unified in their views, and this book reflects the various traditions, agreements, influences, and squabbles that are a part of the field. Special features include hundreds of references to and quotations from novels, stories, plays, poems, movies, and other media. Online resources could also include video and music clips, as well as high-quality examples of visual art mentioned in the book. The book also includes periodic "running" references to selected key titles (such as *Frankenstein*) in order to illustrate the effect of different theories on a single work.

The author of the world wide best-seller, *Small Is Beautiful*, now tackles the subject of Man, the World, and the Meaning of Living. Schumacher writes about man's relation to the world. man has obligations -- to other men, to the earth, to progress and technology, but most importantly himself. If man can fulfill these obligations, then and only then can he enjoy a real relationship with the world, then and only then can he know the meaning of living. Schumacher says we need maps: a "map of knowledge" and a "map of living." The concern of the mapmaker--in this instance, Schumacher--is to find for everything its proper place. Things out of place tend to get lost; they become invisible and their proper places end to be filled by other things that ought not be there at all and therefore serve to mislead. *A Guide for the Perplexed* teaches us to be our own map makers. This constantly surprising, always stimulating book will be welcomed by a large audience,

including the many new fans who believe strongly in what Schumacher has to say.

Critical Theory: The Key Concepts introduces over 300 widely-used terms, categories and ideas drawing upon well-established approaches like new historicism, postmodernism, psychoanalysis, Marxism, and narratology as well as many new critical theories of the last twenty years such as Actor-Network Theory, Global Studies, Critical Race Theory, and Speculative Realism. This book explains the key concepts at the heart of a wide range of influential theorists from Agamben to Žižek. Entries range from concise definitions to longer more explanatory essays and include terms such as: Aesthetics Desire Dissensus Democracy Hegemony Ideology Intersectionality Late Capitalism Performativity Race Suture Featuring cross-referencing throughout, a substantial bibliography and index, **Critical Theory: The Key Concepts** is an accessible and easy-to-use guide. This book is an invaluable introduction covering a wide range of subjects for anyone who is studying or has an interest in critical theory (past and present).

Have you heard the terms structuralism and deconstruction and postmodernism but aren't really sure what they mean? Have you taken a whole course on literary criticism but are still feeling lost? Here's the book you need to sort it all out and enjoy doing so! In **Literary Theory For Beginners**, Mary Klages takes you into her classroom, cuts through the jargon, and explains the ABCs (and the DEFs as well) in terms you can get your head around. Her breadth of knowledge, her unique skills as a teacher, and the delightful illustrations of Frank Reynoso help us understand why literature matters, how it affects us, and how it reflects history, culture, and diversity. Here are ways of thinking about literature not just reading it methods of study and frameworks of interpretation from classical humanism all the way up to psychoanalysis, gender and queer theory, race, postcolonialism, and, yes, postmodernism With wit and wisdom, Klages takes on the two most frequently asked questions about literature and makes it all fun: What does the work MEAN? (What is the deeper, hidden, or symbolic meaning? Did the author intend all these meanings? Are any and all meanings present in the text? Are all meanings equally valid?) What does the work DO? (Why is literature important? What effect does it have on the reader? How can literature be a force for social change?) So sit back, relax, and take it all in! "

Students of literature, film and cultural studies need to understand key theoretical terms and concepts but often find it hard to get to grips with exactly what they mean. This book provides precise definitions of terms and concepts in literary theory, along with explanations of the major movements and figures in literary and cultural theory and an extensive bibliography. It is designed for the student who needs to know what a particular term means, how it is used, and where it comes from, and enables them to apply the terms and concepts to their own investigations. The three part structure provides clear definitions of key terms and ideas, introductions to major figures including biographical and historical overviews and an annotated guide to important works. This invaluable resource provides readers with an easily accessible and comprehensive reference guide to literary and cultural theory.

Critical Theory Today is the essential introduction to contemporary critical theory. It provides clear, simple explanations and concrete examples of complex concepts, making a wide variety of commonly used critical theories accessible to novices without sacrificing any theoretical rigor or thoroughness. This new edition provides in-depth coverage of the most common approaches to literary analysis today: feminism, psychoanalysis, Marxism, reader-response theory, new criticism, structuralism and semiotics, deconstruction, new historicism, cultural criticism, lesbian/gay/queer theory, African American criticism, and postcolonial criticism. The chapters provide an extended explanation of each theory, using examples from everyday life, popular culture, and literary texts; a list of specific questions critics who use that theory ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading.
