A hilarious view of life after divorce: you'll never look at properties again without thinking of your dating life. Back on the Market is a Realtor's guide to life, love, and dating and the multitude of challenges that come with it all. Holly Parker has sold 8 billion dollars of luxury real estate throughout her career as one of Manhattan's most successful brokers. Through her humor and quick wit, she connects common real estate terms to everyday life, making Back on the Market a fun and unforgettable read. After seven years of marriage, Holly found herself "falling out of contract," as a newly divorced woman reluctantly facing the prospect of being "back on the market." She understands that life is transactional, whether it's a business decision or those we spend our time with, so she took her skills as a master real estate agent and applied everything she knew to getting her life back. Cleverly told through the eyes of a Realtor, Holly depicts the perils of life, love, and dating-whether it's dealing with first-time buyers (those who have a romanticized version of what they think they want and what they can actually have), the value of curb appeal, fixing the foundation of a damaged home, not listing before you're ready to sell, staging, and so much more. Hilarious and emotional, Holly shares her dating experiences with "fixer uppers," the guys with "good bones," and the "forever renters." Back on the Market is a story of hope and the pursuit of happiness. Full of memorable takeaways, lessons, and anecdotes, Holly will help you find your perfect "home" and fall in love with life all over again.

Let's face it-fixing and flipping houses is sexy. Who doesn't love the idea of buying a rundown, mold-infested shack and transforming it into someone's dream home for massive profits? Reality TV shows make it look so easy. A little paint here, some new kitchen cabinets there, and presto! The house is sold for big bucks and everyone lives happily ever after. If only it were that simple. Fixing and flipping houses is a business. In order for a business to survive, prosper, and grow, systems must be put in place. Fixing and Flipping Real Estate: Strategies for the Post-Boom Era is a book that breaks down the four essential components of a fix-and-flip business, giving you the building blocks to efficiently buy and sell 1 to 20 properties a month in today's post-boom era housing market. You'll learn about each of the boxes: Acquisition-How to find and buy a profitable real estate deal. Rehabbing-How to systematically remodel a house and how not to underimprove, or overimprove, your property. Sales-How to sell your flip for the highest possible price in the shortest possible time. Raising Capital-How to get the capital you need to grow your business, including using other people's money, for your real estate deals without getting sued or going to jail. In the post-real estate boom era, fixing and flipping is again a solid business-especially in the "sand" states-Arizona, California, Nevada, Texas, and Florida, among others. It's also a good bet in states as diverse as North Carolina and Washington State. And with the real estate market projected to bottom out nationally in 2012 (this time for real), there are plenty of houses to be renovated and plenty of money to be made by the enterprising in all fifty states. This book shows real estate investors everything they need to know to get started fixing and reselling houses either as a substantial sideline or a full-on business.
