Lao-tzu's Tao Te Ching, or Book of the Way, is the classic manual on the art of living, and one of the wonders of the world. In eighty-one brief chapters, the Tao Te Ching looks at the basic predicament of being alive and gives advice that imparts balance and perspective, a serene and generous spirit. This book is about wisdom in action. It teaches how to work for the good with the effortless skill that comes from being in accord with the Tao (the basic principle of the universe) and applies equally to good government and sexual love; to child rearing, business, and ecology. Stephen Mitchell's bestselling version has been widely acclaimed as a gift to contemporary culture.

The Tao Te Ching is fundamental to the Taoist school of Chinese philosophy and strongly influenced other schools, such as Legalism and Neo-Confucianism. This ancient book is also central in Chinese religion, not only for Taoism but Chinese Buddhism, which when first introduced into China was largely interpreted through the use of Taoist words and concepts. Many Chinese artists, including poets, painters, calligraphers, and even gardeners have used the Tao Te Ching as a source of inspiration. Its influence has also spread widely outside East Asia, aided by hundreds of translations into Western languages. Chinese classic by well known best selling author.

The Dao De Jing exists on the border between poetry and philosophy, embracing both mythos and logos. Its poetic form can stand alone, but it is enriched when its timeless ideas are analyzed and explained through careful scholarship. For example: He who knows others is knowledgeable. He who knows himself is wise. These words resemble Socrates' account of his own quest in Plato's Apology. Ancient philosophy, both in China and in Greece, places self-knowledge at the center of the search for wisdom. Contemporary philosophers are often misled about this way of thinking, because the self has been detached from external things and separated from nature and society. Now Jane English and her long-time editor, Toinette Lippe, have revised and refreshed the translation so that it more faithfully reflects the Classical Chinese in which it was first written, taking into account changes in our own language and eliminating any lingering infelicities. They have retained the simple clarity of the original rendering of a sometimes seemingly obtuse spiritual text, a clarity that has made this version a classic in itself, selling over a million copies. Written most probably in the sixth century B.C. by Lao Tsu, this esoteric but infinitely practical book has been translated into English more frequently than any other work except the Bible. Gia-fu Feng and Jane English's superb translation—the most accessible and authoritative modern English translation—offers the essence of each word and makes Lao Tsu's teaching immediate and alive. This edition includes an introduction and notes by the well-

known writer and scholar of philosophy and comparative religion, Jacob Needleman.

Traditionally attributed to Lao-tzu, a Chinese philosopher thought to have been a contemporary of Confucius, it is the essential text of Taoism, one of the three great religions of ancient China. As one of the world's great works of wisdom literature, it still has much to teach us today, offering a practical model based on modesty and self-restraint for living a balanced existence and for opening your mind, freeing your thoughts, and attaining enlightenment and self-awareness. Also included is an introduction by the well-known writer and scholar of philosophy and comparative religion, Jacob Needleman. Lao Tsu ' s philosophy is simple: Accept what is in front of you without wanting the situation to be other than it is. Study the natural order of things and work with it rather than against it, for to try to change what is only sets up resistance. Nature provides everything without requiring payment or thanks. It does so without discrimination. So let us present the same face to everyone and treat them all as equals, however they may behave. If we watch carefully, we will see that work proceeds more quickly and easily if we stop "trying," if we stop putting in so much extra effort, if we stop looking for results. In the clarity of a still and open mind, truth will be reflected. Te—which may be translated as "virtue" or "strength"—lies always in Tao meaning "the way" or "natural law." In other words: Simply be.

Included are Le Guin's own personal commentary and notes on the text.
