"An amazing and brilliant instruction manual on how to find purpose, build a career, and live a life of fulfillment." – DEEPAK CHOPRA A surefire guide to planning your next career move and discovering the job you really want. Jennifer Turliuk was dissatisfied in her corporate job, so she quit. But she had no idea what to do next. After university, she, like so many graduates, focused on just getting a job rather than figuring out the career she really wanted. Instead of getting another degree or going back to school to change her career path, Turliuk embarked on a "self-education journey," interviewing and shadowing some of the world's leading professors, founders, and investors from Silicon Valley companies such as Airbnb, Square, and Kiva. What she discovered was not only a way to find out what she really wanted to do with her own life, but also a career-design process that would help others do just the same. Turliuk's career-prototyping framework uses tested strategies and exercises, including quantified self, design thinking, and lean methodology to help everyone from recent graduates to mid-career workers looking for a change. Let this book be your guide to finding a satisfying and passion-driven career that is right for you.

Are your children ready to live out their faith in the real world? Most parents who value Christian faith want their children to enjoy a vibrant, growing relationship with God, both now and throughout their lives. But few of those parents ever attach this hope to an ongoing plan; therefore, they fail to lay a reliable spiritual track in front of the fast-moving train of family life. This book is a junction point where deep parental desire meets workable design and where timid inadequacy meets Christ's sufficiency. It's where individual families become multiplication factories, exerting a lasting impact not only on their coming generations but even on the culture at large. The death of Joshua and his contemporaries was barely old news in Israel before the people of God experienced a Judges 2:10 moment: "There arose another generation after them who did not know the Lord or the work that he had done" (ESV). One generation is all it takes. One generation who stops remembering. One generation who stops creating. One generation blinded to God's real work in their lives who then subtly quiets the expectation of His new work in succeeding generations. *Do Your Children Believe?* appears at a time in history when another Judges 2:10 moment doesn't sound so incredibly far-fetched—a day when many people's only real knowledge of God comes from what they've heard and read about, not what they've actually seen and experienced, and when His work is more about the dutiful following of rules than the daily adventure of walking with Him as Lord. Imagine, instead, a generation of your family who knows God with intimate familiarity. Who doesn't just pretend at faith but actually lives it. Kids who can tell you what they believe and why it matters. Teenagers who handle adversity with the resilient joy of godly wisdom. A family who prays together and worships together, growing into young adults who are equipped and inspired to keep this torch ablaze from the moment their own new families begin. This book is here to make that reality happen, written by an author equipped with not only a passion for the concept but also a proven plan for success—a wealth of first-hand personal stories from his wife and kids for how they've put this plan into living action with remarkable blessings in tow. When God puts His power behind families who embrace this kingdom call, on-the-ground change will result in off-the-charts revival.
