Geography matters, but geopolitics matters more. The latter fluctuates over time (usually slowly, but sometimes dramatically) as technology changes, as trade routes and markets evolve, and as centers of resources change, deplete or new ones are discovered. Global powers who align their geostrategies with geopolitics succeed.

Great Powers and Geopolitical Change. Jakub J. Grygiel. Named by Foreign Affairs as a book to read on geopolitics. In an era of high technology and instant communication, the role of geography in the formation of strategy and politics in international relations can be undervalued. But the mountains of Afghanistan and the scorching sand storms of Iraq have provided stark reminders that geographical realities continue to have a profound impact on the success of military campaigns.

The Geopolitics of Climate Change

In the last two months two seemingly innocent and unnoticed events happened within the borders of the subcontinent with far reaching political and geopolitical implications. The first of the two events was the acceptance for first time by the Prime Minister of India regarding the Russian captivity of Subhash Chandra Bose post 1945. Along with [...]
