Project Gutenberg is a wonderful source of free ebooks - particularly for academic work. However, it uses US copyright law, which isn't universal; some books listed as public domain might still be in copyright in other countries. RightsDirect explains the situation in more detail.

High Probability Day Trading Strategies

A high probability trading strategy that lets you profit in bull & bear markets. And here's my secret (which is what you've just learned)... Trade with the trend; Trade at areas of value; Find an entry; Set my stop loss; Plan my exit; If a trade meets these 5 criteria, then its a good trade to me.

High Probability Trading Strategy — A Complete Guide

There is a high probability that the stock will get back to the high of the day or low of the day, depending on the direction you trade this strategy. Short sell as soon as you see VWAP being respected as resistance. Take 50% (or 75%) off and let the rest ride to low of day. Move the stop-loss to your entry price.

Things To Keep in Mind. Start Day Trading with simple patterns that make sense. Avoid difficult mathematical formulas or calculations that involve geometry or statistics. Look for opportunities that provide high potential reward and low risk so that the size of the winners is at least twice the size of your losers.

High Probability Day Trading Chart Patterns To Watch

Strategies. Excellent trade execution speed. Price action data (+ Level 2 if possible) Ability to trade direct from graphs, Trade automation, Stop losses and take profit orders. Etc etc.

Day Trading Strategies - For Beginners To Advanced Day ...

Given that you would be trading a high probability setup with a large risk-reward ratio, a higher percentage of capital to risk per trade seems appropriate. By going after a larger profit per trade, you are compensating for the various risk factors associated with trading in what is really an artificial work environment.

Amazon.com: Advanced Techniques in Day Trading: A ...

I define high probability trading as trades with a low risk/reward ratio that are backtested to have a positive expectancy with predetermined money management parameters. The best traders always trade when the odds are in their favor, not just because the market is open. They trade for a reason: to make money, not to amuse themselves.

High Probability trading - SILO.PUB

This expression has been the core stone of many trading strategies. Trading with the trend gives you the advantage of eliminating some of the flaws that inherently all trading strategies have. We haven't found the perfect trading strategy yet. Maybe you have found it! But a 100% win ratio trading strategy is a myth.
