If you can change your oil then you're more than equipped to handle the transmission fluid. The only trick is getting the new fluid into the transmission - to do it you'll need a fluid pump to pump the fluid up and into the transmission. You can pick one up online or buy one from any local auto part store. In this guide I used Pennzoil Synchronesh based on several recommendations from various ...

Change the Transmission Fluid on a Honda S2000

Transmission oil change intervals []. The owners and service manual recommends the following intervals: Normal driving conditions: Every 144.000km / 90.000miles or 6 years (which ever comes first) Harsh driving conditions: Every 48.000km / 30.000miles [or 6 months (which ever comes first) Definition of harsh driving conditions []. The eight quarts of oil I bought for the S2000. It will only take about 5.5 quarts to fill the engine, though. The oil level will not be ideal yet, but lowering the car will help to ensure it is level as you slowly add more oil to get it to the correct amount. The car should actually take about 5.5 qts. if you changed the oil filter.
