## Spectrometric Identification Of

Identification of Organic Compounds is written by and for organic chemists, and emphasizes the synergistic effect resulting from the interplay of spectra. This text is characterized by its problem-solving approach with numerous practice problems and extensive reference charts and tables.

## Spectrometric Identification Of

However, high-throughput and accurate identification of compounds in archaeological samples is challenging. In this work, we propose the use of gas chromatography-mass spectrometry (GC-MS) combined with the recently developed chemometric tool autoGCMSDataAnal to identify compounds in archaeological samples.
