The Digital Humanist. A Composition course focused on the relationship between the digital and the human. Digital Humanities Manifesto. This course will examine what it means to be a human, and a humanist, in the digital age. By approaching a range of texts and conceptions of what it means to interact textually and culturally, we will explore the interplay between the physical and digital landscapes we encounter daily.

### The Digital Humanist - Course Description

Digital humanities incorporates both digitized (remediated) and born-digital materials and combines the methodologies from traditional humanities disciplines (such as rhetoric, history, philosophy, linguistics, literature, art, archaeology, music, and cultural studies) and social sciences, with tools provided by computing (such as hypertext, hypermedia, data visualisation, information retrieval, data mining, statistics, text mining, digital mapping), and digital publishing.

### Digital humanities - Wikipedia

Digital humanism is the notion that people are the central focus in the manifestation of digital businesses and digital workplaces. Businesses who embrace digital humanism use technology to redefine the way people achieve their goals and enable people to achieve things not previously possible.

### Embracing Digital Humanism - Smarter With Gartner

This paper's task is to outline some foundations of a critical, Marxist-humanist theory of communication in the age of digital capitalism. It theorises the role of communication in society, communication and alienation, communication in social struggles, social struggles for democratic communication, the contradictions of digital capitalism, and struggles for digital socialist humanism.
